INFORMATION DISCLOSURE STATEMENT

Honorable Commissioner of Patents and Trademarks
Washington, D.C. 20231

Dear Sir:

Pursuant to the DECISION, *SUA SPONTE*, TO MERGE
REEXAMINATION AND REISSUE PROCEEDINGS, and 37 C.F.R.
§1.105, the Applicant in the above referenced Reissue
Application and the Patent Owner in the above referenced
Reexamination Proceedings ("the Applicant") and ("the
Merged Cases"), hereby submits the following disclosure
statement and the accompanying documents.

The Applicant has not caused a comprehensive search to have been made concerning the inventions disclosed and claimed in the above referenced Merged Cases, but has had brought to its attention or to its predecessor's and or counsel's attention, since the above referenced patent issued, various patents and other materials asserted to be prior art references, including the submissions by the Requestors in the above referenced Reexamination Proceedings and a Protest to the Reissue Application, and a submission of prior art associated with the Reexamination proceeding 90/005,628, and various listings of asserted prior art on various sites on the Internet. In an abundance of caution, Applicant made an effort to collect as many as possible of these asserted prior art references and, after removing duplicates, submitted them as an Information Disclosure Statement submitted with the above referenced Reissue Application, which Information disclosure Statement is hereby incorporated by reference. A similar effort has been made to collect asserted prior art references, which have been brought to the attention of Applicant's counsel in the course of attempting to license the above referenced patent since the time of the filing of the above referenced Information disclosure Statement. By such submission, here, in supplement to the above

referenced Information Disclosure Statement, and as was the case with the submissions made within the above referenced Information Disclosure Statement, Applicant does not necessarily agree or concede, or waive in any way its right to contest, that any patent or other printed material is a proper prior art reference, including such considerations as the effective date of any supposed reference vis-à-vis its status as a prior art reference and/or whether or not any such supposed reference otherwise qualifies as, e.g., a public use or printed publication, or otherwise meets in any way any other requirement for constituting a proper prior art reference to the inventions disclosed and claimed in the Merged Cases. This submission along with the prior submissions of Applicant and others in any of the Merged Cases, does include, however, at least those patents and printed publications that the Applicant presently knows of and believes to be proper prior art references to the inventions disclosed and claimed in the Merged Cases, not previously submitted, and all copies of documents referenced herein, other than U.S. Patents, that the Applicant presently possesses. Many of the herein referenced documents, having been listed by third parties on the Internet, are not in Applicant's possession.

Applicant also submits along with this statement PTO
form SB/08B.

Respectfully submitted,

William C. Cray

SUBMISSION

Honorable Commissioner of Patents and Trademarks
Washington, D.C. 20231

Dear Sir:

5 Pursuant to the DECISION, *SUA SPONTE*, TO MERGE
REEXAMINATION AND REISSUE PROCEEDINGS, dated November
03, 2000 and mailed November 6, 2000 ("the Decision"),
the in the above referenced Reissue Application and
Patent Owner in the above referenced Reexamination
10 Proceedings ("the Applicant"), were merged. Applicant
has submitted an Information disclosure Statement with
respect to the above referenced Reissue Application,
which was incorporated by reference into the
Information disclosure Statement filed by the Applicant
15 in accordance with the requirements of the Decision and
37 C.F.R. §1.565(d). Since the time of the filing of
the Information disclosure Statement in the above
referenced Reissue Application the Applicant has come
into possession of copies of some non-patent documents
20 referenced in the Information disclosure Statement
filed with the Reissue Application as purported
references.

Specifically these copies are of documents listed
on the Internet Web-Site of the Information Technology
25 Association of America. Applicant hereby submits
